- Remote Control - Codes: VCR1-RC5

### General

- Voltage: 198-264 V
- Frequency: 50Hz
- Backup Presets: 1yr
- Backup Clock - Calendar - Timer Event: 3hrs
- Power Consumption Play in W: 16.0
- Low Power Standby Power Cons.: < 4 W
- Weight Including / Excluding package in kg: 5.5 / 3.6
- Set Size - W x D x H in mm: 380 x 260 x 93 mm
- Packaging - W x D x H in mm: 450 x 382 x 180 mm
- Equipment Supplied: Aerial Cable, Batteries for RC

## Product Highlights

### • Digital Studio Picture Control

Digital Studio Picture Control keeps checking the quality of your videotapes and reproduces the best possible picture performance. Philips' Digital Studio Picture Control optimises the playback quality. It measures the characteristics of the tape, adapts the resolution and reduces the picture noise.

### • Record Link

Your satellite receiver is equipped with a Timer function? Connect both your VCR and the satellite receiver with a SCART cable and make use of the „Record Link“ function. You just have to activate it and switch your VCR to std-by. As soon as the satellite receiver gets active, the VCR switches on and is set in the record mode. At the end of the recording it returns automatically to Stand-by.

### • Turbo Drive

Enjoy the ease of use and the comfort of one of the fastest VCR decks in the world.

### • Plug & Play

With Plug & Play, the VCR welcomes you and leads you through the installation steps. You just have to set your language and the country you live in. The VCR does the rest.
